São Paulo, August, 2018.

Dear colleagues,

The International Federation of Gynecology and Obstetrics (FIGO) invites you to participate in the XXII FIGO World Congress 2018, scheduled to take place in Rio de Janeiro, Brazil, from October 14th to October 19th, 2018.

The FIGO World Congress is unique, being the only meeting related to the practice of obstetrics and gynecology exhaustively addressing, during a full week, all aspects of women's health in the world. The scientific program will cover cutting edge topics in daily practice, the most recent development and management of the rapidly evolving health care requirements, as well as the crucial challenges concerning low resource countries.

The lectures and sessions will be provided by worldwide recognized experts in the field of obstetrics and gynecology, representatives of universities, private practice, major hospitals and health care institutions from around the globe.

Our organizing team is working hard to ensure that the FIGO Congress in Rio is an unforgettable experience. For so, we would like to count with your participation to guarantee the success of our Congress.

We have sent you a ready-to-go email marketing campaign encouraging professionals to register for FIGO 2018 (Suggested title: "FIGO 2018 in Rio: REGISTER TODAY!"), a GIF that can be uploaded to your society's website and social media accounts. We make Facebook posts twice a week and also ask you to share them within your network. Our communications team is available if you need any different format to help us promote the XXII FIGO in your media.

All society presidents are granted their registration. Register now for discounted rates before September 14th.
